Hospitals, office buildings, restaurants, schools, manufacturing facilities and warehouses – all buildings have similar ventilation needs such as fresh air, comfort cooling, energy efficient operation, quiet ventilation, reliable and easy building maintenance.

The Dayton brand offering has products for all building type air systems. The challenges of controlling grease, moving air in large open rooms, eliminating fumes and ensuring quiet operation all can be handled by Dayton ventilation products.

MANUFACTURING FACILITY AND WAREHOUSE

From high ceilings and wide open spaces in manufacturing facilities, to office areas and engine exhaust containment in outside air loading docks, workers will be assured comfort and safety with well ventilated, climate controlled Dayton ventilation products.

SCHOOL

From classrooms to gymnasium, kitchen to cafeteria, Dayton ventilation is ready for your complex air control needs. Students and staff will enjoy the comfortable well ventilated environment and quiet operation. Our products are energy efficient and allow for quick cost-saving installation and maintenance.

These illustrations highlight the various Dayton brand products available for hospitals, office buildings, schools, manufacturing facilities and warehouses; they do not represent actual ventilation applications.
RESTAURANT
Dayton has a full line of kitchen ventilation products for clean air and safety in the kitchen and customer comfort in the dining area. Our products are designed to deliver effective and efficient control of interior air, quiet operation and quick cost-saving installation.

- Centrifugal Belt-Drive Filtered Supply Ventilator
- Insulated Ceiling Ventilator
- Direct Fired Make-Up Air Heater
- Severe-Duty Centrifugal Upblast Exhaust Ventilator
- Round Centrifugal In-Line Duct Blower
- Utility Exhaust Belt-Drive Blower
- Commercial Kitchen Exhaust Hood
- Square Centrifugal In-Line Duct Blower
- Centrifugal Downblast Exhaust Ventilator
- Industrial Air Circulator with Pedestal
- Hooded Gravity Roof Ventilator
- Centrifugal Filtered Supply Ventilator
- Direct Fired Make-Up Air Heater
- Centrifugal Upblast Exhaust Ventilator
- Centrifugal Downblast Exhaust Ventilator
- Insulated Ceiling Ventilator
- Square Centrifugal In-Line Duct Blower
- Utility Exhaust Blower
- Commercial Kitchen Exhaust Hood
- Dayton

OFFICE BUILDING
Dayton has a complete line of office building ventilation products to ensure a comfortable and productive workplace. Our products are designed to deliver cost-saving installation, energy efficiency, quiet operation and comfort.

- Direct Fired Make-Up Air Heater
- Centrifugal Upblast Exhaust Ventilator
- Centrifugal Downblast Exhaust Ventilator
- Emergency Smoke Exhaust Ventilator
- Round Centrifugal In-Line Duct Blower
- Fire/Smoke Damper
- Insulated Ceiling Ventilator
- Square Centrifugal In-Line Duct Blower
- Dayton

HOSPITAL
From surgery suites, to patient rooms, laboratories, public areas, offices, lobbies and cafeterias, today's medical facilities have complex demands for air ventilation. Dayton ventilation products focus on energy efficiency and sustainable building needs by providing energy efficient, reliable, quiet operation.
